

Angel pasta ornaments

BABYCCINO KIDS

23RD APRIL 2020

INGREDIENTS:

- Wooden beads
- Pasta Penne – for the body
- Pasta Farfalle – for the wings
- Glue
- Some type of twine or a ribbon
- Acrylic or watercolor paint

METHOD:

- First you need to paint the pasta – penne for the body and farfalle for the wings. You could of course also leave them as they are. Or just paint either the body or the wings.

- As soon as the paint is dry, glue the wings at the very upper part of the body and wait until they dry.
- Now cut about 20 cm of twine, tie at the very bottom and string it through the hole of the bead.

- Apply glue to the bottom of the bead, around the knot and glue it to the body (penne).
